CARING FOR THE WHOLE FAMILY

## FOAM FOOTCARE RANGE

Soft and comfortable, VitaPlus foam protectors offer relief from pain and discomfort caused by blisters and bunions. They also offer pressure relief on areas of the foot such as the ball of the foot and heel.

## GEL FOOTCARE RANGE

The feet are especially sensitive to pressure after treatment or with certain foot disorders. Our pressure protection products from polymer gel adapt to the feet as if they were custom made. Gel products for foot disorders are widely used after post operative surgery, primarily because of the softness of gel and its absorbing qualities.
